Dear **Mr. John**,

The B.S. in Information Technology program of Mapúa Malayan Colleges Laguna requires their students to undergo Practicum program for a minimum of **486** hours in an academic calendar that will prepare our students to be job-ready after completing their curriculum. This program intends to enable our students to acquire and practice the knowledge and skills expected of a graduate of a B.S. IT program which, in turn, would guarantee continuous supply of IT professionals needed by your company.

We believe that your company can provide the relevant exposure necessary for our students to achieve the intended learning outcomes for the B.S. in Information Technology program. In this regard, I would like to endorse **Mr. Mahrcus Leanard D. Usisa** to have his practicum activities in your company as requested.

We thank you for your confidence and trust with us and we look forward to a more meaningful linkage that is mutually beneficial to our students and your company.

With warm regards,

ADOMAR L. ILAO, DIT

STUDENT TRAINING AGREEMENT AND LIABILITY WAIVER

IMPORTANT INFORMATION

- THIS FORM IS TO BE ACCOMPLISHED AND SUBMITTED BY STUDENT TRAINEE TO THE PRACTICUM ADVISER BEFORE STARTING THE PRACTICUM.
- READ AND UNDERSTAND THE PROVISIONS OF THIS AGREEMENT AND WAIVER.
- ENSURE THAT ALL SIGNATORIES SIGN THE FORM.

I, Mahrcus Leanard D. Usisa, and a student of MALAYAN COLLEGES LAGUNA (hereinafter referred to as "MCL", do hereby voluntarily undergo on-the-job training at Datamatics, hereinafter referred to as the "Host Company", located at 3rd Floor, Tower 1, RBC, Ortigas Ave, Pasig City, under the following terms and conditions:

- That the practicum training will commence on May 4, 2026 and ends on May 28, 2026 and will have to complete a minimum of 486 hours required for the on-the-job training;
- That I shall observe proper decorum and act professionally at all times and abide by the Company's rules and regulations and comply with those imposed for the training program, otherwise, I shall be excluded from further participation;
- That in the course of my training program, I may have access to information which may be of confidential in nature and proprietary to the Company, for which I may be required to execute a confidentiality and non-disclosure agreement as a prerequisite to my participation in the training program;
- That the time I will spend on the training program in the completion of my on-the-job training requirements will not and should not be interpreted or construed as working hours and should be regarded as non-compensable. Provided that, the Company may, as a unilateral act of liberality or generosity on their part, provide me with meal, travel, transportation allowances, accommodations, etc.;
- That I fully understand that notwithstanding the allowances enumerated in the preceding section which I may receive, there exists no labor-management and/or employer/employee relationship between me and the Company where I will undergo my training;
- That I shall exercise due care and diligence in the tasks assigned to me and personally be made answerable for any and all liabilities for damage to property or injury to third person, which may be occasioned by my intentional or negligent acts during the course of my on-the-job training;
- That I shall likewise hold the Host Company and MCL free and harmless from any and all liability and responsibility for any sickness or injury to myself and third parties and damage to property which I may sustain and/or may occur at any time during the training program, including time spent in traveling to and from any and all premises and locations where I may be required to go to as part of my training program;
- That the Company reserves the right to discontinue my training on reasonable grounds upon written notice to MCL and myself. Additionally, in the event my training program is discontinued for reasons attributable only to myself, I may be made to reimburse the Host Company for any/all the allowances, stipends, etc., which I may have received from them during and prior to the termination of my training program;
- That in addition to my liability under section g and for the pre-termination of my training program provided for under section h hereof, I may be subjected further to disciplinary action in accordance with the school's student manual and/or be a ground for disqualification from graduation;

Overview of the Company

Datamatics is a Digital Technologies, Operations, and Experiences company that enables hundreds of global enterprises to go deep in digital to enhance their productivity and customer experience to create a sustainable competitive advantage.

Vision

To be a world class organization admired for consistently delivering superior business value

Mission

To enhance business efficiency through smart solutions

Company Background

Datamatics is a global Digital Technologies, Operations, and Experiences company that helps organizations improve business performance through digital transformation, automation, and IT services. The company provides solutions in information technology, engineering, business process management, cloud services, and intelligent automation. Datamatics serves clients from various industries worldwide and focuses on delivering reliable technology solutions that improve operational efficiency and customer satisfaction.

Discussion of the Nature of Tasks

During my internship at Datamatics, I was assigned to the IT Technical Support team, where I gained hands-on experience in providing technical support to employees and maintaining the organization's IT resources. My responsibilities included setting up and deploying desktop and laptop computers, installing and reinstalling Windows operating systems, configuring and updating software applications, and troubleshooting both hardware and software issues. I also assisted in printer and scanner setup, basic network troubleshooting, and hardware replacement when necessary. In addition, I participated in asset inventory management and monthly PC audits by verifying company-issued devices and updating inventory records using Microsoft Excel. As part of the user support process, I responded to technical concerns through the company's ticketing system, documented troubleshooting procedures, and ensured that issues were resolved efficiently. These responsibilities enhanced my technical competencies while strengthening my problem-solving, communication, documentation, and customer service skills in a professional IT support environment.
